Report on Internal Control Over Financial Reporting

The Association’s principal executives and principal financial officers, or persons performing similar functions, are responsible for establishing and maintaining adequate internal control over financial reporting for the Association’s Consolidated Financial Statements. For purposes of this report, “internal control over financial reporting” is defined as a process designed by, or under the supervision of the Association’s principal executives and principal financial officers, or persons performing similar functions, and effected by its Board of Directors, management and other personnel. This process provides reasonable assurance regarding the reliability of financial reporting information and the preparation of the Consolidate Financial Statements for external purposes in accordance with accounting principles generally accepted in the United States of America.

Internal control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Association, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial information in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures are being made only in accordance with authorizations of management and directors of the Association, and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Association’s assets that could have a material effect on its Consolidated Financial Statements.

The Association’s management has completed an assessment of the effectiveness of internal control over financial reporting as of June 30, 2014. In making the assessment, management used the framework in *Internal Control — Integrated Framework*, promulgated by the Committee of Sponsoring Organizations of the Treadway Commission, commonly referred to as the “COSO” criteria.

Based on the assessment performed, the Association concluded that as of June 30, 2014, the internal control over financial reporting was effective based upon the COSO (1992) criteria. Additionally, based on this assessment, the Association determined that there were no material weaknesses in the internal control over financial reporting as of June 30, 2014.

Management's Discussion and Analysis of Financial Condition and Results of Operations

(dollars in thousands)

The following commentary reviews the financial condition and results of operations of Farm Credit of Florida, ACA, (Association) for the period ended June 30, 2014. These comments should be read in conjunction with the accompanying consolidated financial statements, notes to the consolidated financial statements and the 2013 Annual Report of the Association. The accompanying consolidated financial statements were prepared under the oversight of the Audit Committee of the Board of Directors.

Effective January 1, 2011, Farm Credit of North Florida and Farm Credit of Southwest Florida merged into Farm Credit of South Florida. The merged associations operate under the name of Farm Credit of Florida. The primary reason for the merger was based on a determination that the combined organization would be financially and operationally stronger than either of the associations on a stand-alone basis. The merger was accounted for under the acquisition method of accounting.

Additional information regarding the merger and the related impact to the Association's financial condition is contained in Note 9 of the Notes to the Consolidated Financial Statements.

LOAN PORTFOLIO

The Association provides funds to farmers, rural homeowners and farm-related businesses for financing of short and intermediate-term loans and long-term real estate mortgage loans. The Association's loan portfolio is diversified over a range of agricultural commodities in the north and southern regions of Florida. The commodities include cattle, citrus, dairy, field crops, nurseries, sugar, timber, tropical fruits, and vegetables. All commodity groups identified within the portfolio have experienced generally favorable operating results with the exception of the horticultural or nursery segment which continues to be stressed. Farm size varies and many borrowers have diversified farming operations. This factor, along with numerous opportunities for non-farm income in the territory, reduced the level of dependency on a single agricultural commodity.

Land values in the north region appear to have stabilized over the last 12 months. Land values in the south region show stability with value increase in more urban areas. There have been no significant weather events in the territory that have adversely impacted borrower operations over the past 12 months; however,

management recognizes mounting citrus greening disease issues in the citrus industry that may result in future adverse impacts to growers.

The gross loan volume of the Association as of June 30, 2014, was \$814,831, a decrease of \$14,320 or 1.73 percent as compared to \$829,151 at December 31, 2013. Net loans outstanding at June 30, 2014, were \$808,305 as compared to \$821,743 at December 31, 2013, a decrease of \$13,438 or 1.64 percent. Net loans accounted for 93.03 percent of total assets at June 30, 2014, as compared to 91.09 percent of total assets at December 31, 2013. The decrease in both gross and net loan volume during the period is primarily attributed to expected repayments in seasonal lines of credit within the loan portfolio, expected regular curtailments, and continuing liquidation of assets in process of collection.

There is an inherent risk in the extension of any type of credit. Portfolio credit quality has improved compared to year end 2013 as a result of the movement of loans from Substandard to OAEM and the liquidation of loans in process of collection. Acceptable and OAEM credit quality as a percentage of the total loan portfolio was 91.95% as of June 30, 2014 compared to 88.54% at December 31, 2013. During the six months, nonaccrual loans decreased to \$43,230 from the \$62,115 balance at December 31, 2013. The nonaccrual loan decline is primarily attributed to liquidation of loans in process of collection and other liquidation and curtailments on troubled assets. The balance of Other Property Owned at June 30, 2014 was \$5,067 a decrease of \$2,149 from the \$7,216 balance at December 31, 2013. Sales of properties outpaced acquisitions during the period resulting in this decrease.

Association management maintains an allowance for loan losses in an amount considered sufficient to absorb possible losses in the loan portfolio based on current and expected future conditions. The allowance for loan losses at June 30, 2014, was \$6,526 compared to \$7,408 at December 31, 2013. This decrease is the result of recoveries of \$3,265 recorded during the period offset by a provision for loan loss reversal of \$3,980 and \$167 in charge-offs recorded on loans transferred to nonaccrual or other property owned. Management considers the current level of allowance adequate to cover additional possible losses. The ratio of the allowance for loan losses to gross loans at June 30, 2014 was 0.80 percent.

RESULTS OF OPERATIONS

As a result of the merger on January 1, 2011, \$551.5 million in non-impaired loans were purchased at a combined discount of approximately \$30.3 million. In accordance with accounting guidance, this discount is to be accreted into interest income over the remaining life of each individual loan. For loans that are paid off early, any remaining discount would be accreted into income at time of pay off. The discount amount accreted into interest income for the six months ended June 30, 2014, was \$956.

For the three months ended June 30, 2014

The Association recorded net income for the three months ended June 30, 2014 of \$4,065 as compared to \$4,882 for the same period in 2013. This \$817 decrease is primarily attributed to a reduction in net interest income resulting from reduced loan volume and lower patronage refunds from other Farm Credit institutions offset by lower provision for loan losses resulting from significant recoveries received of amounts previously charged-off. The significant recoveries during the quarter ended June 30, 2014 resulted in recording a reversal of provision for loan losses of \$1,703 for the quarter.

Net interest income was \$6,216 for the three months ended June 30, 2014 as compared to \$6,825 during the same period in 2013. The change in net interest income represents a \$609 or 8.92 percent decrease when compared to the same period last year and is attributed to the decrease in loan volume during the past 12 months and lower accretion of financial marks in interest income as a result of the merger.

Noninterest income for the three months ended June 30, 2014, totaled \$2,060 as compared to \$2,879 for the same period of 2013, a decrease of \$819 or 28.45 percent. This decrease is attributed primarily to decreases in patronage refunds from other Farm Credit institutions of \$482 and decreases in loan fees of \$132.

Noninterest expense for the three months ended June 30, 2014, totaled \$5,914 as compared to \$6,217 for the same period of 2013, a decrease of \$303 or 4.87 percent. The primary reason for the decrease in noninterest expense is attributed to \$337 decrease in salaries and employee benefits.

For the six months ended June 30, 2014

Net income for the six months ended June 30, 2014, totaled \$9,366 compared to \$6,983 for the same period in 2013, an increase of \$2,383 or 34.13 percent. The increase is primarily attributed to a significant reduction in provisions for loan losses during the period offset by a reduction in noninterest income resulting from lower patronage refunds from other Farm Credit institutions. The decrease of \$3,447 in provisions are primarily due to a significant reduction in charge-offs of non-performing loans during 2014 compared to the same period last year, increased recoveries of amounts previously charged-off and lower levels of reserves required due to improving risk profile as a result of improved credit quality. This resulted in recording a

reversal of the provision for loan losses of \$3,980 for the six months ended June 30, 2014.

Net interest income decreased \$572 for the six months ended June 30, 2014, as compared to the same period in 2013. This decrease is attributed to the decreased loan volume over the last 12 months and lower accretion of financial marks into interest income as a result of the merger.

Noninterest income for the six months ended June 30, 2014, totaled \$4,922 as compared to \$6,024 for the same period of 2013, a decrease of \$1,102 or 18.29 percent. This decrease is attributed to decreases in patronage refunds from other Farm Credit institutions of \$704, decreases in loan fees of \$278 along with a decrease in fees for financially related services of \$207. These decreases were offset by an increase of \$265 in other noninterest income.

Noninterest expense for the six months ended June 30, 2014, decreased \$647 compared to the same period of 2013. The primary reason for the decrease is attributed to reduced staffing costs of \$739 for the period. Additional decreases were realized in other operating expenses of \$46 and occupancy and equipment expense of \$68 and were offset by increases in insurance fund premiums of \$45 and losses on other property owned of \$161.

FUNDING SOURCES

The principal source of funds for the Association is the borrowing relationship established with AgFirst Farm Credit Bank (the Bank) through a General Financing Agreement. The General Financing Agreement utilizes the Association's credit and fiscal performance as criteria for establishing a line of credit on which the Association may draw funds. These funds are advanced by the Bank to the Association in the form of notes payable. The notes payable are segmented into variable rate and fixed rate sections. The variable rate note is utilized by the Association to fund variable rate loan advances and operating funds requirements. The fixed rate note is used specifically to fund fixed rate loan advances made by the Association. The total notes payable to the Bank at June 30, 2014, was \$637,201 as compared to \$673,175 at December 31, 2013. The decrease during the period of \$35,974 is primarily attributed to the reduction in loan volume during the period, an increase in members' equity resulting from net income for the six months ended 2014, and receipt of 2013 patronage dividends due from AgFirst Farm Credit Bank.

CAPITAL RESOURCES

Total members' equity at June 30, 2014, increased to \$212,899 from the December 31, 2013 total of \$203,759. The increase is primarily attributed to the net income during the period.

Total capital stock and participation certificates were \$2,566 on June 30, 2014, compared to \$2,793 on December 31, 2013. This decrease is attributed to the retirement of protected stock and

participation certificates on loans liquidated in the normal course of business.

Farm Credit Administration (FCA) regulations require all Farm Credit institutions to maintain minimum permanent capital, total surplus and core surplus ratios. These ratios are calculated by dividing the Association's permanent capital, total surplus and core surplus as defined in FCA regulations, by a risk-adjusted asset base. As of June 30, 2014, the Association's total surplus ratio and core surplus ratio were 20.41 percent and 20.41 percent, respectively, and the permanent capital ratio was 21.23 percent. All three ratios were well above the minimum regulatory ratios of 7.00 percent for permanent capital and total surplus ratios and 3.50 percent for the core surplus ratio.

REGULATORY MATTERS

As previously disclosed, on June 15, 2012 the Farm Credit Administration (FCA) entered into a written supervisory agreement with the Board of Directors of the Association. The written supervisory agreement requires the Association to take corrective actions and other actions with respect to certain areas of its operations, including board governance, director fiduciary duties and standards of conduct, board consultant functions, staffing and succession planning, asset quality, collateral risk, allowance for loan losses, internal audit, board policies, compliance with requirements of the Financial Assistance Agreement, and business planning and reporting. In addition, the Association is operating under Supervisory Conditions of Merger and must maintain compliance with all requirements and conditions.

Conditions and events that led to the need for this agreement include portfolio credit quality deterioration, inadequate management succession and human capital planning, perceived weaknesses in board governance, and reduced earnings.

On May 20, 2013, FCA communicated in a letter to the Board that Board and management actions resulted in significant improvements in direction and control, particularly in the areas of human capital and succession planning, strategic planning, and board policy direction. On April 16, 2014, FCA communicated again in a letter to the Board that Board and management continued to strengthen direction and controls over operations specifically in the areas of corporate governance, financial condition and performance as well as in asset quality. The Association has achieved compliance in the areas of standards of conduct, board consultant functions, staffing study, allowance for loan losses, internal audit, board policies, compliance with requirements of the Financial Assistance Agreement, management reporting and disclosure to shareholders.

As of August 7, 2014, the Association has taken action to correct the weaknesses identified in the supervisory agreement.

As required by the supervisory agreement, the Board will continue engaging an independent consultant to provide advice in understanding and fulfilling its fiduciary responsibilities and to

perform other advisory functions as specified in the agreement. Both the Board and Senior Management are committed to continuing the administration of the Association in a sound manner.

The Association remained under written supervisory agreement as of the date of this report.

Please refer to Note 9, *Business Combination*, in the Notes to the Consolidated Financial Statements for additional information on the Financial Assistance Agreement with the Bank.

OTHER MATTERS

On March 31, 2014, the FCA published an interim final rule rescinding all requirements for nonbinding advisory votes on senior officer compensation at System Banks and Associations. The comment period for the interim rule ended on April 30, 2014 and the final rule became effective on June 18, 2014.

On May 8, 2014, the FCA approved a proposed rule to modify the regulatory capital requirements for System Banks and Associations. The stated objectives of the proposed rule are as follows:

- To modernize capital requirements while ensuring that institutions continue to hold sufficient regulatory capital to fulfill their mission as a government-sponsored enterprise.
- To ensure that the System's capital requirements are comparable to the Basel III framework and the standardized approach that the federal banking regulatory agencies have adopted, but also to ensure that the rules recognize the cooperative structure and the organization of the System.
- To make System regulatory capital requirements more transparent.
- To meet the requirements of section 939A of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act).

Once the proposed rule is published in the Federal Register, the 120-day public comment period will commence.

On June 12, 2014, the FCA approved a proposed rule to revise the requirements governing the eligibility of investments for System Banks and Associations. The stated objectives of the proposed rule are as follows:

- To strengthen the safety and soundness of System Banks and Associations.
- To ensure that System Banks hold sufficient liquidity to continue operations and pay maturing obligations in the event of market disruption.
- To enhance the ability of the System Banks to supply credit to agricultural and aquatic producers.
- To comply with the requirements of section 939A of the Dodd-Frank Act.

- To modernize the investment eligibility criteria for System Banks.
- To revise the investment regulation for System Associations to improve their investment management practices so they are more resilient to risk.

The public comment period ends on October 23, 2014.

On May 8, 2014, the Association paid \$550,000 to the former CEO in satisfaction of the terms of a retention agreement.

Tobin J. Basore was elected to the Board of Directors effective June 2014 for a three year term. Mr. Basore is co-owner and operator of TKM Bengard Farms, LLC in Palm Beach County. As a major vegetable producer, marketer, and shipper, Mr. Basore's company produces 7,000 acres of lettuce and leaf lettuce, 500 acres of sweet corn, and 900 acres of field corn. Mr. Basore is a director on the board of the Florida Fruit and Vegetable Association, a graduate of the Wedgeworth Leadership Institute and a member of the Leadership Palm Beach County organization.

Daniel Colvin was elected to the Board of Directors effective June 2014 for a three year term. Mr. Colvin is a peanut and corn farmer from Marion County. He began his farming career in 1989 with 40 acres of dry land peanuts and with the help of financing from Farm Credit of Florida he now produces 850 acres of irrigating peanuts and corn. Colvin also serves as an Agricultural Production Consultant for over 15,000 acres of row crops and vegetable production across Peninsula Florida. An employee with the University of Florida since 1986, Colvin has served as Assistant Professor, Associate Professor and Full Professor. He presently serves as Director of Research Programs for IFAS Plant Science Research and Education Unit, IFAS' largest field research facility serving over 150 faculty members and conducting almost 700 experiments annually. Colvin is a member of Florida Farm Bureau, Florida Weed Science Society, Southern Weed Science Society, American Society of Agronomy, and ASA Certified Crop Advisor.

John R. Newbold, III was elected to the Board of Directors effective June 2014 for a three year term. Mr. Newbold owns and operates 90 acres of Cut-Foliage in Crescent City, Florida. His company, Forest Groves, Inc., grows, harvests, packs and markets over a dozen varieties of decorative cut foliage for the wholesale flower trade. Along with brokering another twenty varieties, Forest Groves also grows Muscadine grapes (noble variety), that are utilized for wine production. Newbold is a member of the Central Florida Fern Co-op, Viticulture Advisory Council, Florida Grape Growers Association, Wildflower Seed and Plant Growers Association, Putnam County Soil and Water Conservation District, and the Putnam County Fair Association.

Wayne H. Simmons was elected to the Board of Directors effective June 2014 for a three year term. Mr. Simmons is a citrus grower from LaBelle, Florida. He serves as President of LaBelle Fruit Company, LLC and Simmons Family Grove. Simmons is also a Realtor, Broker Associate of Southern Heritage Real Estate and Investments. As a citrus grower he oversees 200 acres of

oranges for process market. He also owns 125 acres of timberland for timber and recreational use. His relationship with Farm Credit goes back to his first land purchase in 1988 and he has enjoyed decades of service ever since. Simmons serves on the Citrus Research and Development Foundation, the Gulf Citrus Growers Association, and the Hendry County Local Planning Boards. He is also a member of the Florida Citrus Production Managers, Florida Citrus Nurseryman Association, Hendry County Farm Bureau, and Southwest Florida Research Foundation.

Lisa Sherman was appointed by the Board of Directors as a stockholder director effective June 2014 for a three year term. Ms. Sherman is a Certified Public Accountant in Lake Placid. She is an officer and serves on the board of Lake Childs Citrus, Inc., The Great Fruit Company, Inc., Highlands County 4H Club Foundation, Embassy Ministries, Inc., Good Care Home, Inc., and Lisa Sherman, CPA, P.A. Ms. Sherman has ownership interest in Black Bear Citrus, LLC. She was appointed to the Farm Credit of Southwest Florida board in 2008 and her previous term of office expired on June 26, 2014 and was subsequently appointed as a stockholder director. Ms. Sherman is a member of the Audit, Credit/Lending, and Compliance Committees. She serves as chair of the Credit/Lending Committee

Effective June 2014, T. Richard Barber, Jr. completed his term and did not run for re-election to the Board of Directors.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

Please refer to Note 1, "*Organization, Significant Accounting Policies, and Recently Issued Accounting Pronouncements*", in the Notes to the Financial Statements, and the 2013 Annual Report to Shareholders for recently issued accounting pronouncements.

Note: Shareholder investment in the Association is materially affected by the financial condition and results of operations of AgFirst Farm Credit Bank. Copies of AgFirst's annual and quarterly reports are available upon request free of charge by calling 1-800-845-1745, ext. 2832, or writing Susanne Caughman, AgFirst Farm Credit Bank, P. O. Box 1499, Columbia, SC 29202. Information concerning AgFirst Farm Credit Bank can also be obtained at their website, www.agfirst.com. Copies of the Association's annual and quarterly reports are also available upon request, free of charge, by calling (561)-965-9001, or writing Laura Craker, CFO, Farm Credit of Florida, ACA, P. O. Box 213069, West Palm Beach, FL 33421, or accessing the website, www.farmcreditfl.com. The Association prepares a quarterly report within 40 days after the end of each fiscal quarter, except that no report need be prepared for the fiscal quarter that coincides with the end of the fiscal year of the institution.

(unaudited)*

Note 1 — Organization, Significant Accounting Policies, and Recently Issued Accounting Pronouncements

Organization

The accompanying financial statements include the accounts of Farm Credit of Florida, ACA (the Association). A description of the organization and operations, the significant accounting policies followed, and the financial condition and results of operations for the Association as of and for the year ended December 31, 2013, are contained in the 2013 Annual Report to Shareholders. These unaudited interim consolidated financial statements should be read in conjunction with the latest Annual Report to Shareholders.

Basis of Presentation

In the opinion of management, the accompanying consolidated financial statements contain all adjustments necessary for a fair presentation of the interim financial condition and results of operations and conform with generally accepted accounting principles (GAAP) and prevailing practices within the banking industry.

Certain amounts in the prior period's consolidated financial statements may have been reclassified to conform to the current period presentation. Such reclassifications had no effect on the prior period net income or total capital as previously reported.

The results of any interim period are not necessarily indicative of the results to be expected for a full year.

Significant Accounting Policies

The Association maintains an allowance for loan losses at a level considered adequate by management to provide for probable and estimable losses inherent in the loan portfolio as of the report date. The allowance for loan losses is increased through provisions for loan losses and loan recoveries and is decreased through loan charge-offs and allowance reversals. A review of individual loans in each respective portfolio is performed periodically to determine the appropriateness of risk ratings and to ensure loss exposure to the Association has been identified.

Recently Issued Accounting Pronouncements

In May 2014 the Financial Accounting Standards Board (FASB), responsible for U.S. Generally Accepted Accounting Principles (U.S. GAAP), and the International Accounting Standards Board (IASB), responsible for International Financial Reporting Standards (IFRS), jointly issued converged standards

on the recognition of revenue from contracts with customers. Accounting Standards Update (ASU) 2014-09, "Revenue from Contracts with Customers (Topic 606)" and IFRS 15 "Revenue from Contracts with Customers" are intended to improve the financial reporting of revenue and comparability of the top line in financial statements globally and supersede substantially all previous revenue recognition guidance. The core principle of the new standards is for companies to recognize revenue to depict the transfer of goods or services to customers in amounts that reflect the consideration (that is, payment) to which the company expects to be entitled in exchange for those goods or services. The new standard also will result in enhanced disclosures about revenue, provide guidance for transactions that were not previously addressed comprehensively (for example, service revenue and contract modifications) and improve guidance for multiple-element arrangements. Because of the pervasive nature of the new guidance, the boards have established a joint transition resource group in order to aid transition to the new standard. For public entities reporting under U.S. GAAP, the amendments in the Update are effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early application is not permitted. For nonpublic entities, the amendments are effective for annual reporting periods beginning after December 15, 2017, and interim periods within annual periods beginning after December 15, 2018. A nonpublic entity may elect to adopt this guidance earlier under certain circumstances. The amendments are to be applied retrospectively. Because financial instruments are not within the scope of the guidance, it is expected that adoption will not have a material impact on the Association's financial condition or results of operations, but may result in additional disclosures.

In March 2014 the FASB issued ASU 2014-06, "Technical Corrections and Improvements Related to Glossary Terms (Master Glossary)." The amendments in this Update relate to glossary terms, cover a wide range of Topics in the Codification and are presented in four sections: Deletion of Master Glossary Terms, Addition of Master Glossary Term Links, Duplicate Master Glossary Terms, and Other Technical Corrections Related to Glossary Terms. These amendments did not have transition guidance and were effective upon issuance for both public entities and nonpublic entities.

In January 2014 the FASB issued ASU 2014-04, "Receivables—Troubled Debt Restructurings by Creditors (Subtopic 310-40) - Reclassification of Residential Real Estate Collateralized Consumer Mortgage Loans upon Foreclosure." The objective of the amendments in this Update is to reduce diversity by clarifying when an in substance repossession or foreclosure occurs, that is, when a creditor should be considered

to have received physical possession of residential real estate property collateralizing a consumer mortgage loan such that the loan receivable should be derecognized and the real estate property recognized. The amendments are effective for public business entities for annual periods, and interim periods within those annual periods, beginning after December 15, 2014. For entities other than public business entities, the amendments in this Update are effective for annual periods beginning after December 15, 2014, and interim periods within annual periods beginning after December 15, 2015. An entity can elect to adopt the amendments in this Update using either a modified retrospective transition method or a prospective transition method. Early adoption is permitted.

Other recently issued accounting pronouncements are discussed in the 2013 Annual Report to Shareholders.

Note 2 — Loans and Allowance for Loan Losses

For a complete description of the Association's accounting for loans (including impaired loans and the allowance for loan losses) and definitions of loan types, see the 2013 Annual Report to Shareholders.

Credit risk arises from the potential inability of an obligor to meet its repayment obligation. The Association manages credit risk associated with lending activities through an assessment of the credit risk profile of an individual obligor. The Association sets its own underwriting standards and lending policies that provide direction to loan officers and are approved by the board of directors.

A summary of loans outstanding at period end follows:

	June 30, 2014		December 31, 2013	
Real estate mortgage	\$	516,785	\$	526,480
Production and intermediate-term		160,711		194,303
Loans to cooperatives		5,641		2,026
Processing and marketing		95,261		72,868
Farm-related business		13,223		11,709
Communication		16,329		15,042
Energy and water/waste disposal		2,249		3,005
Rural residential real estate		4,632		3,718
Total Loans	\$	814,831	\$	829,151

A substantial portion of the Association's lending activities is collateralized, and exposure to credit loss associated with lending activities is reduced accordingly.

The Association may purchase or sell participation interests with other parties in order to diversify risk, manage loan volume, and comply with Farm Credit Administration (FCA) regulations. The following tables present participation loan balances at periods ended:

	June 30, 2014							
	Within AgFirst District		Within Farm Credit System		Outside Farm Credit System		Total

*Includes the loan types; Loans to cooperatives, Processing and marketing, and Farm-related business.

A restructuring of a debt constitutes a troubled debt restructuring (TDR) if the creditor for economic or legal reasons related to the debtor's financial difficulties grants a concession to the debtor that it would not otherwise consider. The following tables present additional information about pre-modification and post-modification outstanding recorded investment and the effects of the modifications that occurred during the periods presented. The tables do not include purchased credit impaired loans.

Total Loans	\$ 26,085	\$ 35,672	\$ 22,867	\$ 30,685
Additional commitments to lend	\$ -	\$ -		

Purchased Credit Impaired (PCI) Loans

The Association acquires loans individually and in groups or portfolios. For certain acquired loans that experienced deterioration in credit quality between origination and acquisition, the amount paid for the loan will reflect this fact. At acquisition, each loan is reviewed to determine whether there is evidence of deterioration of credit quality since origination and if it is probable that the Association would be unable to collect all amounts due according to the loan's contractual terms. If both conditions exist, the purchaser determines whether each such loan is to be accounted for individually or whether such loans would be assembled into pools of loans based on common risk characteristics (credit score, loan type, and date of origination, for example). Considerations of value should include expected prepayments, the estimated amount and timing of undiscounted expected principal, interest, and other cash flows (expected at acquisition) for each loan and the subsequently aggregated pool of loans. Any excess of the loan's or pool's scheduled contractual principal and contractual interest payments over all of the cash flows expected at acquisition is an amount that should not be accreted to income (nonaccretable difference). The remaining amount, representing the excess of the loan's cash flows expected to be collected over the amount paid, is accreted into interest income over the remaining life of the loan or pool (accretable yield).

Accounting guidance requires that the purchaser continue to estimate cash flows expected to be collected over the life of the loan or pool. It then evaluates at the balance sheet date whether the present value of its loans, determined using the effective interest rate, has decreased and if so, recognizes a loss. For loans or pools that are not accounted for as debt securities, the present value of any subsequent increase in the loan's or pool's actual cash flows or cash flows expected to be collected is used first to reverse any existing valuation allowance for that loan or pool. For any remaining increases in cash flows expected to be collected, or for loans or pools accounted for as debt securities, a

purchaser adjusts the amount of accretable yield recognized on a prospective basis over the loan's or pool's remaining life.

Valuation allowances for all PCI loans reflect only those losses incurred after acquisition, that is, the present value of cash flows expected at acquisition that are not expected to be collected. Valuation allowances are established only subsequent to acquisition of the loans.

The carrying amounts of loans acquired in a 2011 business combination included in the balance sheet amounts of loans receivable at period end were as follows:

	June 30, 2014
Real estate mortgage	\$ 3,331
Production and intermediate-term	765
Rural residential real estate	89
Total Loans	\$ 4,185

At June 30, 2014, the allowance for loan losses related to these loans was \$157 compared with \$188 at December 31, 2013. During the three and six month periods ended June 30, 2014, provision for loan losses on these loans was an expense reversal of \$295 and an expense reversal of \$457, respectively, compared with expense reversals of \$173 and \$861 for the three and six month periods ended June 30, 2013, respectively. See above for a summary of changes in the total allowance for loan losses for the period ended June 30, 2014. There were no loans acquired during 2014 or 2013 for which it was probable at acquisition that all contractually required payments would not be collected.

Certain of the loans acquired by the Association in the 2011 business combination that were within the scope of PCI loan guidance are accounted for using a cash basis method of income recognition because the Association cannot reasonably estimate cash flows expected to be collected. Substantially all of the loans acquired were real estate collateral dependent loans. The real estate market in Florida was extremely unstable, making the estimation of the amount and timing of a sale of loan collateral

in essentially the same condition as received upon foreclosure indeterminate. As such, the Association did not have the information necessary to reasonably estimate cash flows expected to be collected to compute a yield. Management determined a nonaccrual classification would be the most appropriate and that no income would be recognized on these loans as is allowed under accounting guidance. These amounts are included in the carrying values, net of allowance, described above.

Note 3 — Investment Securities

The Association's investments consist primarily of asset-backed securities (ABSs). These ABSs are issued through the Small Business Administration and are guaranteed by the full faith and credit of the United States government. They are held for managing short-term surplus funds and reducing interest rate risk. These securities meet the applicable FCA regulatory guidelines related to government agency guaranteed investments.

The Association's investments also consist of Rural America Bonds, which are private placement securities purchased under the Mission Related Investment program approved by the FCA. In its Conditions of Approval for the program, the FCA considers a Rural America Bond ineligible if its investment rating, based on the internal 14-point risk rating scale used to also grade loans, falls below 9 and requires System institutions to provide notification to FCA when a security becomes ineligible. FCA approval has been obtained to allow the Association to continue to hold two Rural America Bonds whose credit quality has deteriorated beyond the program limits.

A summary of the amortized cost and fair value of investment securities held-to-maturity follows:

	June 30, 2014				
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value	Yield
Mission Related Investments	\$ 5,122	\$ 590	\$ (53)	\$ 5,659	5.67%
Asset-backed securities	11,874	201	(105)	11,970	0.19
Total	\$ 16,996	\$ 791	\$ (158)	\$ 17,629	1.84%

	December 31, 2013				
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value	Yield
Mission Related Investments	\$ 6,653	\$ 360	\$ (86)	\$ 6,927	5.86%
Asset-backed securities	14,116	236	(123)	14,229	0.22
Total	\$ 20,769	\$ 596	\$ (209)	\$ 21,156	2.02%

A summary of the contractual maturity, amortized cost and estimated fair value of investment securities held-to-maturity follows:

	June 30, 2014		
	Amortized Cost	Fair Value	Weighted Average Yield
In one year or less	\$ 173	\$ 168	-7.87%
After one year through five years	6,677	6,587	0.18
After five years through ten years	2,935	3,013	1.17
After ten years	7,211	7,861	3.89
Total	\$ 16,996	\$ 17,629	1.84%

A portion of these investments has contractual maturities in excess of ten years. However, expected maturities for these types of securities can differ from contractual maturities because borrowers may have the right to prepay obligations with or without prepayment penalties.

An investment is considered impaired if its fair value is less than its cost. The following tables show the fair value and gross unrealized losses for investments that were in a continuous unrealized loss position aggregated by investment category at each reporting period. A continuous unrealized loss position for an investment is measured from the date the impairment was first identified.

	June 30, 2014			
	Less than 12 Months		12 Months or Greater	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Mission Related Investments	\$ —	\$ —	\$ 1,010	\$ (53)
Asset-backed securities	986	(5)	4,332	(100)
Total	\$ 986	\$ (5)	\$ 5,342	\$ (153)

	December 31, 2013			
	Less than 12 Months		12 Months or Greater	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Mission Related Investments	\$ 2,849	\$ (47)	\$ 83	\$ (39)
Asset-backed securities	1,036	(6)	5,068	(117)
Total	\$ 3,885	\$ (53)	\$ 5,151	\$ (156)

FASB guidance contemplates numerous factors in determining whether an impairment is other-than-temporary. These factors include: (1) whether or not management intends to sell the security, (2) whether it is more likely than not that management would be required to sell the security before recovering its costs, and (3) whether management expects to recover the security's entire amortized cost basis (even if there is no intention to sell). If the Association intends to sell the security or it is more likely than not that it would be required to sell the security, the impairment loss equals the full difference between amortized cost and fair value of the security. When the Association does not intend to sell securities in an unrealized loss position and it is not more likely than not that it would be required to sell the securities, other-than-temporary impairment loss is separated

into credit loss and non-credit loss. Credit loss is defined as the shortfall of the present value of the cash flows expected to be collected in relation to the amortized cost basis.

The Association performs periodic credit reviews, including other-than-temporary impairment analyses, on its investment securities portfolio. The objective is to quantify future possible loss of principal or interest due on securities in the portfolio. Factors considered in determining whether an impairment is other-than-temporary include among others: (1) the length of time and the extent to which the fair value is less than cost, (2) adverse conditions specifically related to the industry, (3) geographic area and the condition of the underlying collateral, (4) payment structure of the security, (5) ratings by rating agencies, (6) the credit worthiness of bond insurers, and (7) volatility of the fair value changes.

The Association uses the present value of cash flows expected to be collected from each debt security to determine the amount of credit loss. This technique requires assumptions related to the underlying collateral, including default rates, amount and timing of prepayments, and loss severity. Assumptions can vary widely from security to security and are influenced by such factors as loan interest rate, geographical location of the borrower, borrower characteristics, and collateral type.

Significant inputs used to estimate the amount of credit loss include, but are not limited to, performance indicators of the underlying assets in the security (including default rates, delinquency rates, and percentage of nonperforming assets), loan-to-collateral value ratios, third-party guarantees, current levels of subordination, vintage, geographic concentration, and credit

ratings. The Association may obtain assumptions for the default rate, prepayment rate, and loss severity rate from an independent third party, or generate the assumptions internally.

The Association has not recognized any credit losses as any impairments were deemed temporary and resulted from non-credit related factors. The Association has the ability and intent to hold these temporarily impaired investments until a recovery of unrealized losses occurs, which may be at maturity, and at this time expects to collect the full principal amount and interest due on these securities, especially after considering credit enhancements.

A substantial portion of these investments were in U. S. government agency securities and the Association expects these securities would not be settled at a price less than their amortized cost. All securities continue to perform at period end.

Note 4 — Debt

Notes Payable to AgFirst Farm Credit Bank

The Association's indebtedness to AgFirst Farm Credit Bank (AgFirst or the Bank) represents borrowings by the Association primarily to fund its loan portfolio. This indebtedness is collateralized by a pledge of substantially all of the Association's assets and the contractual terms of the revolving line of credit are contained in the General Financing Agreement (GFA). The GFA also defines Association performance criteria for borrowing from the Bank, which includes borrowing base margin, earnings and capital covenants, among others.

Note 5 — Members' Equity

Accumulated Other Comprehensive Income

The following tables present activity related to AOCI for the periods presented:

	Changes in Accumulated Other Comprehensive income by Component (a)			
	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Employee Benefit Plans:				
Balance at beginning of period	\$ (156)	\$ (206)	\$ (157)	\$ (208)
Other comprehensive income before reclassifications	—	—	—	—
Amounts reclassified from AOCI	1	2	2	4
Net current period other comprehensive income	1	2	2	4
Balance at end of period	\$ (155)	\$ (204)	\$ (155)	\$ (204)

	Reclassifications Out of Accumulated Other Comprehensive Income (b)				
	For the three months ended June 30,		For the six months ended June 30,		Income Statement Line Item
	2014	2013	2014	2013	
Defined Benefit Pension Plans:					
Periodic pension costs	\$ (1)	\$ (2)	\$ (2)	\$ (4)	See Note 7.
Net amounts reclassified	\$ (1)	\$ (2)	\$ (2)	\$ (4)	

(a) Amounts in parentheses indicate debits to AOCI.

(b) Amounts in parentheses indicate debits to profit/loss.

Note 6 — Fair Value Measurement

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability in an orderly transaction between market participants in the principal or most advantageous market for the asset or liability.

Accounting guidance establishes a hierarchy for disclosure of fair value measurements to maximize the use of observable inputs, that is, inputs that reflect the assumptions market participants would use in pricing an asset or liability based on market data obtained from sources independent of the reporting entity. The hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument's categorization within the hierarchy tiers is based upon the lowest level of input that is significant to the fair value measurement.

Estimating the fair value of the Association's investment in the Bank and Other Farm Credit Institutions is not practicable because the stock is not traded. The net investment is a requirement of borrowing from the Bank and is carried at cost plus allocated equities in the accompanying Consolidated Balance Sheets. The Association owns 4.09 percent of the issued stock of the Bank as of June 30, 2014 net of any reciprocal investment. As of that date, the Bank's assets totaled \$28.2 billion and shareholders' equity totaled \$2.3 billion. The Bank's earnings were \$183 million for the first six months of 2014. In addition, the Association has an investment of \$3,917 related to other Farm Credit institutions.

The classifications within the fair value hierarchy are as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 inputs include quoted prices for similar assets and liabilities in active markets; quoted prices in markets that are not active; and inputs that are observable, or can be corroborated, for substantially the full term of the asset or liability.

Level 3 inputs are unobservable and supported by little or no market activity. Valuation is determined using pricing models, discounted cash flow methodologies, or similar techniques, and could include significant management judgment or estimation. Level 3 assets and liabilities also could include instruments whose price has been adjusted based on dealer quoted pricing that is different than the third-party valuation or internal model pricing.

For a complete discussion of the inputs and other assumptions considered in assigning various assets and liabilities to the fair value hierarchy levels, see the latest Annual Report to Shareholders.

The following table presents the changes in Level 3 assets and liabilities measured at fair value on a recurring basis for the periods presented. The Association had no transfers of assets or

liabilities into or out of Level 1 or Level 2 during the periods presented.

	Standby Letters of Credit	
	For the six months ended June 30,	
	2014	2013
Balance at beginning of period	\$ 145	\$ 60
Issuances	—	—
Settlements	(6)	(24)
Balance at end of period	\$ 139	\$ 36

SENSITIVITY TO CHANGES IN SIGNIFICANT UNOBSERVABLE INPUTS

Discounted cash flow or similar modeling techniques are generally used to determine the recurring fair value measurements for Level 3 assets and liabilities. Use of these techniques requires determination of relevant inputs and assumptions, some of which represent significant unobservable inputs as indicated in the tables that follow. Accordingly, changes in these unobservable inputs may have a significant impact on fair value.

Certain of these unobservable inputs will (in isolation) have a directionally consistent impact on the fair value of the instrument for a given change in that input. Alternatively, the fair value of the instrument may move in an opposite direction for a given change in another input. Where multiple inputs are used within the valuation technique of an asset or liability, a change in one input in a certain direction may be offset by an opposite change in another input having a potentially muted impact to the overall fair value of that particular instrument. Additionally, a change in one unobservable input may result in a change to another unobservable input (that is, changes in certain inputs are interrelated with one another), which may counteract or magnify the fair value impact.

Investment Securities

The fair values of predominantly all Level 3 investment securities have consistent inputs, valuation techniques and correlation to changes in underlying inputs. The models used to determine fair value for these instruments use certain significant unobservable inputs within a discounted cash flow or market comparable pricing valuation technique. Such inputs generally include discount rate components including risk premiums, prepayment estimates, default estimates and loss severities.

These Level 3 assets would decrease (increase) in value based upon an increase (decrease) in discount rates, defaults, or loss severities. Conversely, the fair value of these assets would generally increase (decrease) in value if the prepayment input were to increase (decrease).

Generally, a change in the assumption used for defaults is accompanied by a directionally similar change in the risk premium component of the discount rate (specifically, the portion related to credit risk) and a directionally opposite change in the assumption used for prepayments. Unobservable inputs for loss severities do not normally increase or decrease based on

movements in the other significant unobservable inputs for these Level 3 assets.

Other Property Owned/Impaired Loans

Other property owned and impaired loans are valued using appraisals, market comparable sales, replacement costs and income and expense (cash flow) techniques. Certain unobservable inputs are used within these techniques to determine the Level 3 fair value of these properties. The significant unobservable inputs are primarily sensitive only to industry, geographic and overall economic conditions, and/or specific attributes of each property.

Inputs to Valuation Techniques

Management determines the Association's valuation policies and procedures. The Bank performs the majority of the Association's valuations, and its valuation processes are calibrated annually by an independent consultant. The fair value measurements are analyzed on a quarterly basis. For other valuations, documentation is obtained for third party information, such as pricing, and periodically evaluated alongside internal information and pricing that is available.

Quoted market prices are generally not available for the instruments presented below. Accordingly fair values are based on judgments regarding anticipated cash flows, future expected loss experience, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates involve uncertainties and matters of judgment, and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Quantitative Information about Recurring and Nonrecurring Level 3 Fair Value Measurements

	Fair Value	Valuation Technique(s)	Unobservable Input	Range
Impaired loans and other property owned	\$ 51,175	Appraisal	Income and expense	*
			Comparable sales	*
			Replacement cost	*
			Comparability adjustments	*
Other investments – RBIC	\$ 140	Third party evaluation	Income, expense, capital	Not applicable

* Ranges for this type of input are not useful because each collateral property is unique.

Information about Other Financial Instrument Fair Value Measurements

	Valuation Technique(s)	Input
Cash	Carrying Value	Par/Principal and appropriate interest yield
Loans	Discounted cash flow	Prepayment forecasts
		Probability of default
		Loss severity
Mission Related investments	Discounted cash flow	Risk adjusted discount rate
Asset-backed securities	Vendor priced	**
Other investments	Discounted cash flow	Rates
		Risk adjusted discount rate
Notes payable to AgFirst Farm Credit Bank	Discounted cash flow	Prepayment forecasts
		Probability of default
		Loss severity

** The inputs used to estimate fair value for assets and liabilities that are obtained from third party vendors are not included in the table as the specific inputs applied are not provided by the vendor.

The following tables present the carrying amounts and fair values of assets and liabilities that are measured at fair value on a recurring and nonrecurring basis, as well as those financial instruments not measured at fair value, for each of the hierarchy levels at the period ended:

At or for the Six Months Ended June 30, 2014

Note 7 — Employee Benefit Plans

The following is a table of retirement and other postretirement benefit expenses for the Association:

	For the three months ended June 30,		For the six months ended June 30,	
	2014	2013	2014	2013
Pension	\$ 904	\$ 891	\$ 1,809	\$ 1,782
401(k)	96	113	239	227
Other postretirement benefits	120	107	239	214
Total	\$ 1,120	\$ 1,111	\$ 2,287	\$ 2,223

The following is a table of retirement and other postretirement benefit contributions for the Association:

	Actual YTD Through 6/30/14	Projected Contributions For Remainder of 2014	Projected Total Contributions 2014
	Pension	\$ 22	\$ 2,823
Other postretirement benefits	161	173	334
Total	\$ 183	\$ 2,996	\$ 3,179

Contributions in the above table include allocated estimates of funding for multi-employer plans in which the Association participates. These amounts may change when a total funding amount and allocation is determined by the Plan's Sponsor Committee. Also, market conditions could impact discount rates and return on plan assets which could change contributions necessary before the next plan measurement date of December 31, 2014.

Further details regarding employee benefit plans are contained in the 2013 Annual Report to Shareholders.

In May 2014, the AgFirst Plan Sponsor Committee voted to approve changes to certain employee benefit plans as follows:

- (1) On January 1, 2015, the AgFirst Farm Credit Cash Balance Retirement Plan (Cash Balance Plan) will be frozen, employer contributions will cease, and the Cash Balance Plan will be closed to new entrants.
- (2) In lieu of participation in and contributions to the Cash Balance Plan, additional employer contributions will be made to the Farm Credit Benefits Alliance 401(k) Plan.

The above changes are expected to become officially executed plan amendments in November 2014. The Cash Balance Plan will not be terminated on January 1, 2015, but is expected to be terminated in 2015 or 2016 once all necessary actions have been performed and approvals obtained. Participants in the Cash Balance Plan will continue to receive employer contributions to their hypothetical cash balance accounts through the end of 2014, at which time contributions will cease. Participants will continue receiving interest credits on the same basis as currently being provided until the Cash Balance Plan is terminated. Participants who are not already fully vested in their accounts will automatically become 100% vested on

December 31, 2014. Following the termination of the Cash Balance Plan, vested benefits will be distributed to participants.

Beginning on January 1, 2015, for participants in the Cash Balance Plan and eligible employees hired on or after this date, an additional employer contribution will be made to the Farm Credit Benefits Alliance 401(k) Plan equal to 3% of the participants' eligible compensation.

Accounting related to the curtailment of future benefit service under the Cash Balance Plan, as prescribed in ASC 715 "Compensation – Retirement Benefits", is expected to be triggered in November 2014 when the plan amendments are officially executed. This accounting is not expected to have a material impact on the Association's financial condition or results of operations.

Note 8 — Commitments and Contingent Liabilities

From time to time, legal actions are pending against the Association in which claims for money damages are asserted. On at least a quarterly basis, the Association assesses its liabilities and contingencies in connection with outstanding legal proceedings utilizing the latest information available. While the outcome of legal proceedings is inherently uncertain, on the basis of information presently available, management, after consultation with legal counsel, is of the opinion that the ultimate liability, if any, from these actions, would not be material in relation to the financial position of the Association. Because it is not probable that the Association will incur a loss or the loss is not estimable, no liability has been recorded for any claims that may be pending.

Note 9 — Business Combination

Effective January 1, 2011, Farm Credit of North Florida, ACA, and Farm Credit of Southwest Florida, ACA, merged with and into Farm Credit of South Florida, ACA. Farm Credit of South Florida then changed its name to Farm Credit of Florida, ACA. As part of the merger, those Associations entered into an agreement with the Bank under which the Bank would provide limited financial assistance to the merged Association in the event of substantial further deterioration in the combined high risk asset portfolio of the merged Association. This agreement relates only to a finite pool of high risk assets of the merged Association existing at the merger date, which had a net book value at January 1, 2011 of \$250.0 million. At June 30, 2014, those assets had a net book value of \$54.7 million. This agreement with the Bank does not include losses that are sustained outside of the high risk asset pool. The agreement provides for limits on the merged Association's ability to make patronage distributions and certain other restrictions which are imposed if certain merged Association capital ratios fail to meet minimum established levels.

Under the financial assistance agreement, as amended, if specified minimum levels of capital allocated to the high risk asset pool are not maintained by the merged Association, the Bank would provide financial assistance as stipulated in the agreement. The assistance consists of three components. First, the Bank would allow the Association to include Bank allocated stock owned by the merged Association in its capital ratio computations. Second, the Bank would redeem purchased stock held by the merged Association, up to the total amount outstanding, and the redeemed amount would be included in capital ratio computations by the merged Association. The third and final level of assistance would be a purchase by the Bank at the option of the merged Association of the high risk asset pool from the Association at net book value. Sale of the asset pool by the Association would be conditioned upon the purchase and/or reallocation of Bank stock by the merged Association in an amount necessary to satisfy the capitalization requirement under the Bank's capitalization plan then in effect.

Total available first level of assistance (Bank allocated stock owned by the merged Association) that could be included in the merged Association's capital ratio computations was \$10.1 million at December 31, 2012, \$9.8 million at December 31, 2013 and \$9.8 million at June 30, 2014. Total available second level of assistance (Bank purchased stock that could be redeemed and also included in the merged Association's capital ratio computations) was \$1.3 million at December 31, 2012, \$0 at December 31, 2013 and \$0 at June 30, 2014.

Prior to December 31, 2012, capital allocated to the high risk asset pool met minimum levels specified requiring no financial assistance from the Bank under the agreement. Beginning December 31, 2012, capital allocated to the high risk asset pool failed to meet specified minimum capital levels due to cumulative losses in the pool from resolution efforts, provisions, and write-downs subsequent to the merger date. This required \$3.3 million of first level financial assistance from the Bank at December 31, 2012 to meet specified minimum capital levels. Total assistance provided by the Bank to the merged Association under the agreement increased to \$11.0 million (\$10.1 million of first level assistance and \$0.9 million of second level assistance) at March 31, 2013, decreasing to \$10.5 million (\$10.1 million of first level assistance and \$0.4 million of second level assistance) at June 30, 2013, and further decreasing to \$7.2 million of first level assistance at September 30, 2013.

During the fourth quarter of 2013, the financial assistance agreement was amended to allow the Association to allocate capital to the high risk asset pool. In accordance with the amended financial assistance agreement, the Association allocated \$7.0 million in capital to the high risk asset pool at December 31, 2013. This resulted in no financial assistance required from the Bank under the agreement at December 31, 2013.

At June 30, 2014, capital allocated to the high risk asset pool met minimum levels specified requiring no financial assistance from the Bank under the agreement.

Note 10 — Regulatory Enforcement Matters

As previously disclosed, on June 15, 2012 the Farm Credit Administration (FCA) entered into a written supervisory agreement with the Board of Directors of the Association. The written supervisory agreement requires the Association to take corrective actions and other actions with respect to certain areas of its operations, including board governance, director fiduciary duties and standards of conduct, board consultant functions, staffing and succession planning, asset quality, collateral risk, allowance for loan losses, internal audit, board policies, compliance with requirements of the Financial Assistance Agreement, and business planning and reporting. In addition, the Association is operating under Supervisory Conditions of Merger and must maintain compliance with all requirements and conditions.

Conditions and events that led to the need for this agreement include portfolio credit quality deterioration, inadequate management succession and human capital planning, perceived weaknesses in board governance, and reduced earnings.

On May 20, 2013, FCA communicated in a letter to the Board that Board and management actions resulted in significant improvements in direction and control, particularly in the areas of human capital and succession planning, strategic planning, and board policy direction. On April 16, 2014, FCA communicated again in a letter to the Board that Board and management continued to strengthen direction and controls over operations specifically in the areas of corporate governance, financial condition and performance as well as in asset quality. The Association has achieved compliance in the areas of standards of conduct, board consultant functions, staffing study, allowance for loan losses, internal audit, board policies, compliance with requirements of the Financial Assistance Agreement, management reporting and disclosure to shareholders.

As of August 7, 2014, the Association has taken action to correct the weaknesses identified in the supervisory agreement.

As required by the supervisory agreement, the Board will continue engaging an independent consultant to provide advice in understanding and fulfilling its fiduciary responsibilities and to perform other advisory functions as specified in the agreement. Both the Board and Senior Management are committed to continuing the administration of the Association in a sound manner.

The Association remained under written supervisory agreement as of the date of this report.

Note 11 — Subsequent Events

The Association has evaluated subsequent events and has determined that there are none requiring disclosure through August 7, 2014, which is the date the financial statements were issued.
