## HARVEST PAY LEASE BENEFITS:

- ✓ **Preservation of Working Capital**
- ✓ **Improved Cash Flow**

Harvest payment allows you to acquire the equipment when you need it (during production) and delay payments until you have the cash (after harvest). With a small down payment, you can choose to delay the beginning of lease payments from as little as 2 months on up to 9 months into the future. Additional payments will follow at annual intervals, making it possible for you to continue matching equipment payments to your cash flows.
